Disclosures on Risk Based Capital (Pillar 3 of Basel-III)

For the Year Ended December 31, 2021

Shahjalal Islami Bank Limited

Market Discipline

Disclosures on Risk Based Capital (Pillar 3 of Basel III)

For the year ended December 31, 2021

Background

To strengthen global capital and liquidity rules with the goal of promoting a more resilient banking sector, the Basel Committee on Banking Supervision (BCBS) issued “Basel-III: A global regulatory framework for more resilient banks and banking systems” in December 2010. The objective of the reforms was to improve the banking sector’s ability to absorb shocks arising from financial and economic stress, whatever the source, thus reducing the risk of spillover from the financial sector to the real economy. Through its reform package, BCBS also aims to improve risk management and governance as well as strengthen banks’ transparency and disclosures. Basel Committee’s comprehensive reform package also addressed the lessons of the economic and financial crisis, which began in 2007, for holding insufficient liquidity buffers and building up excessive on and off-balance sheet leverage that results in a gradual erosion of the level and quality of the capital base.

To cope up with the international best practices and to make the bank’s capital shock absorbent, Bangladesh Bank issued ‘Guidelines on Risk Based Capital Adequacy (Revised Regulatory Capital Framework for banks in line with Basel-III) in December 2014 with the instructions to maintain the minimum capital requirement under pillar 1, additional capital requirement under pillar 2 and market disclosure requirement under pillar 3. Shahjalal Islami Bank Limited (SJIBL) has put special attention to implement Basel-III inside the Bank. As per Bangladesh Bank guidelines, SJIBL has formed “Basel Implementation Unit (BIU)” which is under a supervisory committee and includes senior management of the Bank. SJIBL has an exclusive body naming Supervisory Review Process (SRP) team constituted by the concerned departmental heads and headed by Managing Director of the Bank.

Purpose

As part of Basel-III compliance, Market Discipline (pillar 3) is formulated with a view to establish more transparent and more disciplined financial market so that stakeholders can assess the position of a bank regarding holding of assets and to identify the risks relating to the assets and capital adequacy to meet probable loss of assets.

Disclosure Framework

Shahjalal Islami Bank Limited has adopted Basel-III framework as part of its capital management strategy in line with the revised Guidelines of Bangladesh Bank and also developed a set of formal disclosure framework approved by the Board of Directors of the Bank which includes the ‘Qualitative and Quantitative Disclosures’ containing the components of Scope of Application, Capital Structure, Capital Adequacy, Investment (Credit) Risk, Equities: Disclosures for Banking Book Positions, Profit (Interest) Rate Risk in the Banking Book (PRRBB), Market Risk, Operational Risk, Liquidity Ratio, Leverage Ratio and Remuneration of the Bank.

Consistency and Validation

The quantitative disclosures on Risk Based Capital (Basel-III) are made on the basis of audited consolidated financial statements of Shahjalal Islami Bank Limited (SJIBL) and its subsidiaries for the year ended December 31, 2021. Those are prepared under the historical cost convention in accordance with the International Financial Reporting Standards (IFRSs).

Market Discipline

Disclosures on Risk Based Capital (Pillar 3 of Basel III)

For the year ended December 31, 2021

As Financial Reporting Standards are yet to be issued by FRC, as per the provisions of FRA (Section-69), consolidated and separate financial statements of the Group and the Bank, respectively, have been prepared in accordance with the International Financial Reporting Standards (IFRSs) and International Accounting Standards (IASs) as adopted by the Institute of Chartered Accountants of Bangladesh (ICAB) and, in addition to this, the Bank also complied with the provisions of the “Guidelines for Islamic Banking” issued by Bangladesh Bank through BRPD Circular No. 15 dated November 09, 2009 with reference to the provisions of the Bank Companies Act, 1991 and amendment thereon, the Companies Act 1994 and other circulars/instructions of Bangladesh Bank, the Securities and Exchange Rules 1987 and Standards issued by the Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI), as a member of that organization.

Therefore, information presented in the ‘Quantitative Disclosures’ section can easily be verified and validated with corresponding information presented in the audited consolidated financial statements-2021 of SJIBL and its subsidiary. The report is prepared once a year and is available on the bank’s website (www.sjiblbld.com).

D.	Total Regulatory/Eligible Capital (A+B-C)	33,778.03	34,082.21

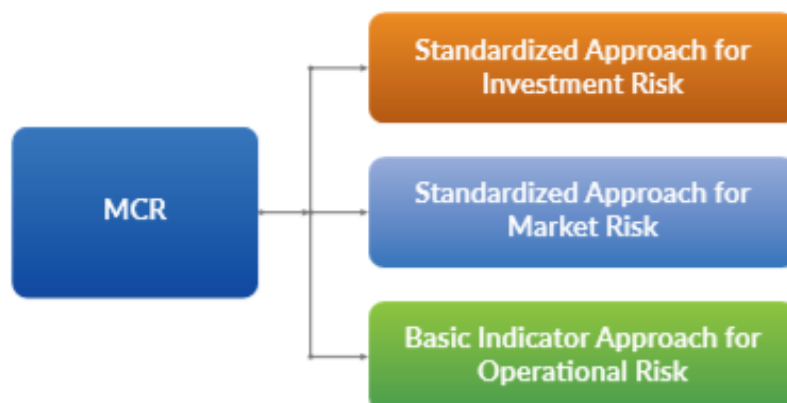

3. Capital Adequacy

Qualitative Disclosures

a) A summary discussion of the Bank's approach to assess the adequacy of its capital to support current and future activities.

Shahjalal Islami Bank Limited with its focused strategy on risk management has always been consistent in maintaining Capital to Risk Weighted Assets Ratio above the regulatory requirements. The Bank has been successfully managing the incremental growth of Risk Weighted Assets (RWA) by ensuring diversification of the portfolio in SME, Agriculture, Retail and Corporate segments. However, RWA is also managed by taking collaterals against investments. The Bank Management strives to ensure external credit rating which is duly conducted by the investment clients.

The Bank has adopted The Standardized Approach (TSA) to calculate the RWA for Investment Risk and to calculate the capital charge for market risk. On the other hand, Basic Indicator Approach (BIA) is adopted to calculate the capital charge for operational risk. Assessment of capital adequacy is made against the total RWA under the said three (03) approaches.

Market Discipline

Disclosures on Risk Based Capital (Pillar 3 of Basel III)

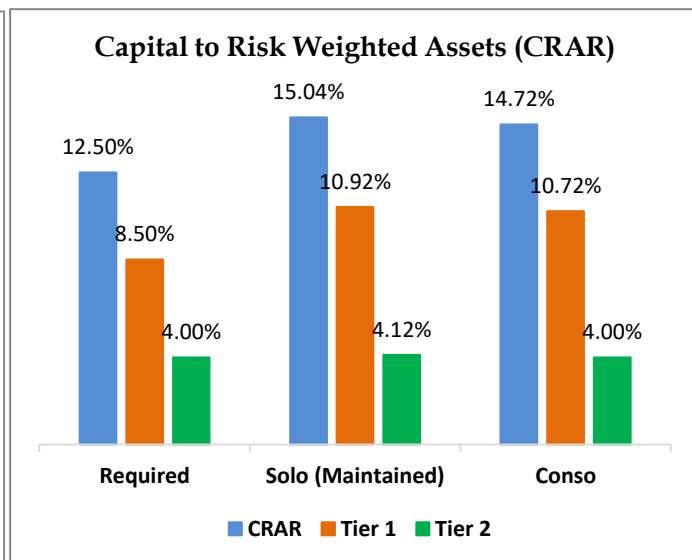

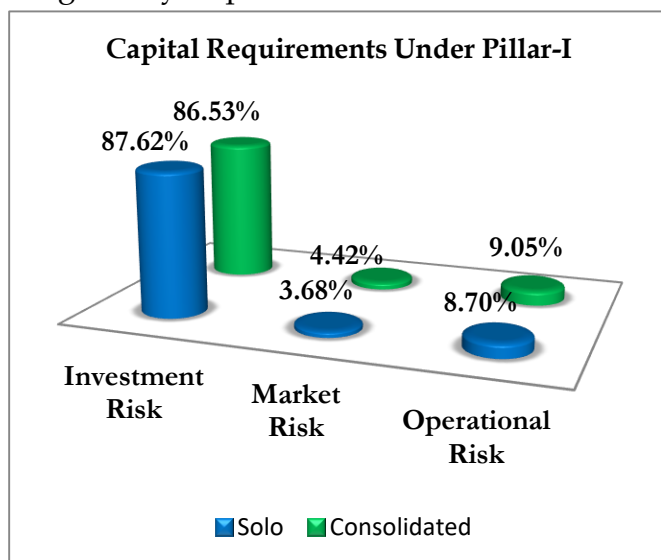

For the year ended December 31, 2021

The Bank has maintained Capital to Risk Weighted Assets Ratio (CRAR) of 14.72% & 15.04% on the basis of "Consolidated" and "Solo" respectively against the minimum regulatory requirement of 12.50% (MCR 10% + Conservation Buffer 2.50%). The Bank's policy is to manage and maintain adequate capital that is sufficient to absorb all material risks associated with the Bank and to comply with regulatory requirements and to satisfy the external rating agencies and all other stakeholders including depositors. The main objective of the capital management process in the Bank is to ensure that Bank has adequate capital to meet up its losses.

4. Investment (Credit) Risk

Qualitative Disclosures

a) The general qualitative disclosure requirement with respect to investment (credit) risk, including:

i) Definitions of past due and impaired (for accounting purposes)	<p>Past Due: As per Bangladesh Bank guidelines, any Investment if not repaid within the fixed expiry date will be treated as Past Due.</p> <p>Impaired: An Investment where profit and/or installment of principal remain for more than 90 days in respect of a Continuous Investment, Demand Investment or a Term Investment etc. except Term Investment below Tk.1 million will be treated as Impaired (NPI).</p>
	<p>Bangladesh Bank issued Circulars from time to time for strengthening Investment (Credit) discipline and brings provisioning. All Investments/Loans & Advances will be grouped in to four (4) categories for the purpose of classification, namely</p> <p>(a) Continuous Investment (Loan): The Investment accounts in which transactions may be made within certain limit and have an expiry date for full adjustment will be treated as Continuous Investment. Examples are: Cash Credit, Overdraft, etc.</p> <p>(b) Demand Investment (Loan): The Investments that become repayable on demand by the Bank will be treated as Demand Investment. If any contingent or any other liabilities are turned to forced investment (i.e. without any prior approval as regular investment) those too will be treated as Demand Investment. Such as: Forced Investment against Imported Merchandise, Payment against Document, FBP and IBP etc.</p> <p>(c) Fixed Term Investment (Loan): The Investments, which are repayable within a specific time period under a specific repayment schedule, will be treated as Fixed Term Investment.</p> <p>(d) Short Term Agricultural & Micro Investment (Loan): Short-term Agricultural Investment will include the short-term investments as listed under the Annual Credit Program issued by the Agricultural Credit and Financial Inclusion Department (ACFID) of Bangladesh Bank. Investments in the agricultural sector repayable within 12 (twelve) months will also be included herein. Short-term Micro-Credit will include any micro-credit not exceeding an amount determined by the ACFID of Bangladesh Bank from time to time and repayable within 12 (twelve) months, be those termed in any names such as Non-agricultural credit, Self-reliant Credit, Weaver's Credit or Bank's individual project credit.</p> <p>The above Investments (Loans) are classified as follows:</p>

Market Discipline

Disclosures on Risk Based Capital (Pillar 3 of Basel III)

For the year ended December 31, 2021

Types of Facility			Investment (Loan) Classification		
			Sub Standard (SS)	Doubtful (DF)	Bad & Loss (BL)
			Overdue Period	Overdue Period	Overdue Period
Continuous Investment & Demand Investment			3 Months or more but less than 6 months	6 Months or more but less than 9 months	9 Months or more
Fixed Term Investment	More than Tk.1 million		3 Months or more but less than 6 months	6 Months or more but less than 9 months	9 Months or more
	Up to Tk.1 million		6 Months or more but less than 9 months	9 Months or more but less than 12 months	12 Months or more
Short-term Micro Credit	Agricultural &		12 Months or more but less than 36 months	36 Months or more but less than 60 months	60 Months or more

A Continuous Investment, Demand or a Term Investment which will remain overdue for a period of 02 (two) months or more will be put into the “Special Mention Account (SMA)”.

Every business line as well as the overall economic activities got severely affected and influenced by Covid-19. Taking this into consideration, Bangladesh Bank issued BRPD circular # 17 dated September 28, 2020, BRPD circular letter # 56 dated December 10, 2020, BRPD circular letter # 59 dated December 30, 2020, BRPD circular letter # 45 dated October 04, 2021, BRPD circular # 51 & 52 dated December 29, 2021 and BRPD circular # 53 dated December 30, 2021 instructed to facilitate deferral facilities to the borrowers without applying the above frame of Investment (Loan) classification.

ii) Description of approaches followed for specific and general allowances and statistical methods;

Provision for Investments is created for covering the Bank from possible investment losses in the future. General provision is made on the outstanding amount of investments without considering the classified status following the prescribed rate of Bangladesh Bank. Classified investments of the Bank are categorized as Sub-standard, Doubtful and Bad & Loss as per Bangladesh Bank circulars. For investments which are classified, specific provision is created netting off eligible security value and profit suspense from the outstanding amount. Provision for off balance sheet items is made as per BRPD circular no. 14 dated September 23, 2012 for covering the Bank for possible losses in the future. Profit accrued on Sub-standard, Doubtful and Bad & Loss investments is transferred to profit suspense account and not consider as profit income. This profit is recognized as profit income when it realized in cash by the Bank as per latest circular of Bangladesh Bank. Investment are written off to the extent that (i) there is no realistic prospect of recovery, and (ii) against which legal cases are filled and classified as bad & loss as per BRPD circular no. 01 dated January 13, 2003 and 13 dated November 07, 2013. However, these write off will not undermine/affect the claim amount against the client of Investments. Detailed memorandum records for all such write off accounts are meticulously maintained and followed up.

The Bank is required to maintain the following general and specific provision in respect of un-classified and classified investments on the basis of Bangladesh Bank guidelines issued from time to time. Rates of provision are noted below:

5. Equities: Disclosures for Banking Book Position

Qualitative Disclosures

a) The general qualitative disclosures requirement with respect to equity risk, including:

Differentiation between holdings on which capital gains are expected and those taken under other objectives including for relationship and strategic reasons; and	Investment in equity securities are broadly categorized into two parts: i) Quoted Securities that are traded in the secondary market (Trading Book Assets). ii) Unquoted securities are categorized as Banking book equity exposures which are further sub-divided into two groups: unquoted securities which are invested without any expectation that these will be quoted in near future i.e. Held to Maturity (HTM). And securities those are acquired under private placement or IPO and are going to be traded in the secondary market after completing required formalities. Unquoted securities are valued at cost.
Discussion of important policies covering the valuation and accounting of equity holdings in the Banking book. This includes the accounting techniques and valuation methodologies used, including key assumptions and practices affecting valuation as well as significant changes in these practices	The primary objective is to invest in equity securities for the purpose of capital gain by selling them in future or held for dividend income. Dividends received from these equity securities are accounted for as and when received and right to receive when established. Both Quoted and Un-Quoted equity securities are valued at cost and necessary provisions are maintained time to time as per instruction of Bangladesh Bank if the prices fall below the cost price.

6. Profit (Interest) Rate Risk in the Banking Book (PRRBB)

Qualitative Disclosures

a) The general qualitative disclosure requirement including the nature of PRRBB and key assumptions, including assumptions regarding investment prepayments and behavior of non-maturity deposits, and frequency of PRRBB measurement.

Profit rate risk is the risk where changes in market profit rates might adversely affect Bank's financial condition. Changes in profit rates have two following types of affect:

- i. **Earning Perspective (Current Earnings):** It affects a Bank's earnings by changing its net profit income and the level of other profit (interest) sensitive income and operating expenses. The short term impact of changes in profit rates is on the Bank's Net Profit (Interest) Income (NII).
- ii. **Economic Value Perspective (Net Worth of the Bank):** The economic value of future cash flows changes when profit rate changes. In a longer term, changes in profit rates impact the cash flows on the assets, liabilities and off-balance sheet items, giving rise to a risk to the net worth of the Bank arising out of all re-pricing mismatches and other profit rate sensitive position.

In Shahjalal Islami Bank Limited, the Treasury Division under the supervision of the Asset & Liability Committee

Market Discipline

Disclosures on Risk Based Capital (Pillar 3 of Basel III)

For the year ended December 31, 2021

(ALCO) is responsible for managing market risk arising from Banking book activities of Bank.

Techniques of Addressing PRRBB: Shahjalal Islami Bank Limited are applied the following techniques to manage the Profit Rate Risk in the Banking Book.

Re-pricing Schedules: It is the simplest techniques for measuring a Bank's profit rate risk exposure and that is generating a maturity/re-pricing schedule that distributes profit sensitive assets, liabilities, and OBS positions into a certain number of predefined time bands according to their maturity (if fixed-rate) or time remaining to their next re-pricing (if floating-rate). Those assets and liabilities lacking definitive re-pricing intervals (e.g. sight deposits or savings accounts) or actual maturities that could fluctuate from contractual maturities are assigned to re-pricing time bands according to judgement and past experience of the Bank.

Gap Analysis: It helps to assess the profit rate risk of current earnings. To evaluate earnings exposure, profit rate-sensitive liabilities in each time band are subtracted from the corresponding profit rate sensitive assets to produce a re-pricing "gap" for that time band. This gap is then multiplied by an assumed changed in profit rates to yield an approximation of the change in net profit income that would result from such a profit rate movement.

Market Discipline

Disclosures on Risk Based Capital (Pillar 3 of Basel III)

For the year ended December 31, 2021

- i. Duration:** A maturity/re-pricing schedule is also used to evaluate the effects of changing profit rates on a Bank's economic value by applying sensitivity weights to each time band. Typically, such weights are based on estimates of the duration of assets and liabilities that fall into each time band.
- ii. Quarterly Stress Testing:** It is conducted on quarterly basis as per the directives of Bangladesh Bank to gain better insight into the vulnerable issue of PRRBB.

Quantitative Disclosures

b) The increase (decrease) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management's method for measuring PRRBB, broken down by currency (as relevant).

Particulars	Taka in Million

7. Market risk

Qualitative Disclosures

a) i) Views of BOD on trading / investment activities	The Board approves all policies related to market risk, setting of limits and review on Core Risk compliance on a regular basis. The objective is to provide cost effective funding to finance asset growth and trade related transactions.
ii) Methods used to measure market risk	Standardized approach has been used to measure the market risk. The total capital requirement in respect of market risk is the aggregate capital requirement calculated for each of the risk sub-categories. For each risk category minimum capital requirement is measured in terms of two separately calculated capital charges for "specific risk" and "general market risk".

Market Discipline

Disclosures on Risk Based Capital (Pillar 3 of Basel III)

For the year ended December 31, 2021

iii) Market Risk Management system	The Treasury Division manage market risk covering liquidity, profit rate and foreign exchange risks with oversight from Asset-Liability Management Committee (ALCO) comprising senior executives of the Bank. ALCO is chaired by the Managing Director. ALCO meets at least once in a month.
iv) Policies and processes for mitigating market risk	There are approved limits for Investment (credit) to deposit ratio, liquid assets to total assets ratio, maturity mismatch, commitments for both on-balance sheet and off-balance sheet items and borrowing from money market and foreign exchange position. The limits are monitored and enforced on a regular basis to protect the loss against market risks. The exchange rate of the Bank is monitored regularly and the Bank reviews the prevailing market condition, exchange rate, foreign exchange position and transactions to mitigate foreign exchange risks.

8. Operational Risk

Qualitative Disclosures

a) i) Views of BOD on system to reduce Operational Risk	Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. The Board of Directors is always focused on deployment of Capable Human Resources, Systems etc. to carry out a large number of transactions effectively and accurately while complying with applicable laws and regulations constitute operational risk management activities of the Bank.
---	---

Market Discipline

Disclosures on Risk Based Capital (Pillar 3 of Basel III)

For the year ended December 31, 2021

	<p>The policy for operational risks including internal control & compliance risk is duly approved by the Board taking into account relevant guidelines of Bangladesh Bank. Audit Committee of the Board directly oversees the activities of Internal Control & Compliance to protect against all operational risks. Senior Management is always committed on implementation of the Operational Risk Management framework as approved by the Board. Management also ensures regular review and active participations in monitoring the effectiveness of Risk Management. Both the Board of Directors & Management of Shahjalal Islami Bank Ltd. believe that efficient management of Operational Risk always contribute to earnings and development of bank and preserve interest of all stakeholders.</p>
ii) Performance gap of executives and staffs	<p>Employee performance is the most important factor to achieve organizational goals. Bank maintains a technology based yearly performance monitoring system of each employee to monitor productivity based on allotted budget. Employee can easily check his/her performance growth as well as set strategy for achieving yearly budget. Rewards and recognition decisions of employees are made on the basis of individual performances. Bank has a special focus on:</p> <ul style="list-style-type: none"> • Ensuring a balanced diversity, • Increase employee ownership to the Bank, • Improving productivity of an employee • Providing competitive compensation and benefits • Protecting human rights, • Ensuring a healthy and safety workplace, • Ensuring equal opportunity. <p>SJIBL's strong brand image also plays an important role in employee motivation. SJIBL arranges internal and external Training, Workshop, Webinar, Seminar, Symposium and Participation in Fare etc. to develop employee skills.</p>
iii) Potential external events	<p>By its nature, Operational Risk cannot be totally eliminated. Like other Banks, SJIBL also operates its business with few potential external events that may significantly affect the Bank into operational risks are as follows:</p> <ul style="list-style-type: none"> • General business and political condition, • Inflation, • Changes in taxation rules, • The risk of litigation process, • Changes in credit quality of borrowers, • Damage of physical asset,

For the year ended December 31, 2021

	<p>unable to fulfill its commitments in time when payment falls due. Thus, liquidity risk can be of two types:</p> <p>(i)Funding liquidity risk and</p> <p>(ii)Market liquidity risk.</p>
ii) Views of Board of Directors on system to reduce liquidity risk	<p>The Bank's Board of Directors already approved the strategy and significant policies related to the management of liquidity. According to the strategy and policies, SJIBL maintains diversified and stable funding base comprising of core retail, corporate and institutional deposits to manage liquidity risk. The responsibility of managing the liquidity risk of the Bank lies with Treasury Front Office. Different key ratios including LCR and NSFR are regularly discussed in monthly meeting of ALCO. The committee meets at least once in a month to review Asset-Liability and Liquidity position of the Bank. Treasury Division maintains liquidity based on current liquidity position, anticipated future funding requirement, sources of fund, options for reducing funding needs and ALCO monitors present and anticipated asset quality, present and future earning capacity, present and planned capital position etc.</p>
iii) Methods used to measure liquidity risk	<p>A sound liquidity risk management employed in measuring, monitoring and controlling liquidity risk is critical to the viability of the Bank. The measurement tools those are used to assess liquidity risks are:</p> <ol style="list-style-type: none"> Cash Reserve Requirement (CRR); Statutory Liquidity Ratio (SLR); Investment to Deposit Ratio (IDR); Structural Liquidity Profile (SLP); Maximum Cumulative Outflow (MCO); Liquidity Coverage Ratio (LCR); Net Stable Funding Ratio (NSFR) etc.
iv) Liquidity risk management system	<p>The Asset Liability Committee (ALCO) meets at least once in a month to discuss and monitor overall position of the Bank including liquidity. Treasury Division closely monitors liquidity requirements on daily basis by appropriate coordination among funding activities. Besides, monthly fund flow projection is reviewed in ALCO meeting regularly in order to manage liquidity risk of the Bank.</p>
v)Policies and processes for mitigating liquidity risk	<p>In order to develop comprehensive liquidity risk management framework, the Bank has Board approved Contingency Funding Plan (CFP), a set of policies and procedures that serves as a blueprint for the Bank, to meet its funding needs in a planned manner at</p>

Disclosures on Risk Based Capital (Pillar 3 of Basel III)

For the year ended December 31, 2021

reasonable cost. Thus, CFP is an extension of ongoing liquidity management that formalizes the objectives of liquidity management by ensuring:

- a) Reasonable liquid assets being maintained;
- b) Measurement and projection of funding requirements during various scenarios; and
- c) Management of access to sources of fund.

Maturity ladder of cash inflows and outflows are effective tool to determine the Bank's cash position. A maturity ladder estimates a Bank's cash inflows and outflows and thus net deficit or surplus (GAP) on a day to day basis in different time buckets (e.g. call, 2-7 days, 1 month, 1-3 months, 3-12 months, 1-5 years, over 5 years).

Quantitative Disclosures

Particulars	Percentage (%)	
	Standard	Maintained
Cash Reserve Requirement (CRR)	≥4.00%	4.58%
Statutory Liquidity Ratio (SLR)	≥5.50%	14.73%
Investment to Deposit Ratio (IDR)	≤92%	84.48%
Liquidity Coverage Ratio (LCR)	≥100%	181.95%
Net Stable Funding Ratio (NSFR)	>100%	127.96%

10. Leverage Ratio

Qualitative Disclosures

a) i) Views of Board of Directors on system to reduce excessive leverage	The responsibility of monitoring excessive leverage of the Bank lies with the concerned divisions under the guidance of the Board of Directors of the Bank. The Board delivers policies and processes from time to time for managing the Bank's leverage ratio up to the mark.
ii) Policies and processes for managing excessive on and off - balance sheet leverage	<p>The leverage ratio was introduced into the Basel-III framework as a non-risk based backstop limit, to supplement risk-based capital requirements. In order to avoid building-up excessive on and off-balance sheet leverage in the Banking system, a simple, transparent, non-risk based leverage ratio has been introduced by the Bangladesh Bank. The leverage ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements.</p> <p>The leverage ratio is intended to achieve the following objectives:</p>

Market Discipline

Disclosures on Risk Based Capital (Pillar 3 of Basel III)

For the year ended December 31, 2021

	<ul style="list-style-type: none"> • Constrain the build-up of leverage in the Banking sector for broader financial system and the economy; and • Reinforce the risk based requirements with an easy to understand and a non-risk based measure.
iii) Approaches for calculating exposure	<p>The exposure measure for the leverage ratio generally follows the accounting measure of exposure. In order to measure the exposure consistently with financial accounts, the following approaches are applied by the Bank:</p> <ol style="list-style-type: none"> On balance sheet, non-derivative exposures are being net of specific provisions and valuation adjustments (e.g. surplus/ deficit on Available for Sale (AFS)/ Held-for-Trading (HFT) positions). Physical or financial collateral, guarantee or investment risk mitigation purchased is not allowed to reduce on-balance sheet exposure. Netting of investments and deposits is not allowed. <p>The Bank has calculated the regulatory leverage ratio as per the guideline of Basel-III. The numerator, capital measure is calculated using the new definition of Common Equity Tier 1 capital applicable from January 01, 2015.</p>

Quantitative Disclosures

b) Leverage Ratio	A minimum Tier 1 leverage ratio of 3% is being prescribed by Bangladesh Bank both at solo and consolidated basis. The Bank measures and maintains leverage ratio on quarterly basis. The status of leverage ratio at the end of each calendar quarter is submitted to Bangladesh Bank. The formula of Leverage Ratio is as under: $\text{LeverageRatio} = \frac{\text{Tier 1 Capital (after related deductions)}}{\text{Total Exposure (after related deductions)}}$

11. Remuneration

Qualitative Disclosures

a) Information relating to the bodies that oversee remuneration.

i. Name, composition and mandate of the main body overseeing remuneration.	<p>Human Resources Division of the Bank deals with the remuneration related issues of employees with the assistance of Financial Administration Division as per specific provisions laid down in the Employees' Service Rules of the Bank and Pay structure duly approved by the Board of Directors, while the same is governed and oversight by the Managing Director, Management Committee and Head of Human Resources Division.</p> <p>The Bank has a well-defined Employees' Service Rules approved by the Board of Directors, which includes remuneration/compensation packages, retirement benefits of regular employees and incentive schemes etc. The Board has also approved a very competitive and rewarding scale of pay for the Employees. The Service Rules and Remuneration policies/Pay Structure is reviewed and revised from time to time by the management constituting high powered committee taking account of peer group salary structures as well as inflation.</p>
ii. External consultants whose advice has been sought, the body by which they were commissioned, and in what areas of the remuneration process.	<p>Bank does not seek advice from any external consultant in any step of remuneration process and therefore, no commission is paid to this effect.</p>
iii. A description of the scope of the Bank's remuneration policy (e.g. by regions, business lines) including the extent to which it is applicable to foreign subsidiaries and branches.	<p>SJIBL follows the uniform remuneration policy. However, management ensures extremely fair and performance based compensation to all employees. Further, the remuneration of higher management, consultants and contractual appointments are determined and oversight by the Board of Directors on case to case basis.</p> <p>As on December 31, 2021, the Bank had no foreign subsidiaries and branches outside Bangladesh.</p>
iv. A description of the types of employees considered as material risk takers and as senior managers, including the number of employees in each group.	<p>The Bank has not categorized any group or grade of employees as material risk taker. The risks in different operational events of the Bank are borne by the concerned employees of those particular areas as a team. However, the members of senior management, senior most branch managers and Head of the functional division at Head Office are considered as senior managers. As such, a number of 114 Executives of the Bank up to the rank of Vice President as on December 31, 2021 has been considered as senior managers as follows:</p>

Market Discipline

Vice President	50
Total	114

b) Information relating to design and structure of remuneration process.

i. An overview of the key features and objectives of remuneration policy.

The Bank has a well-structured, competitive and rewarding scale of pay for the regular employees of the Bank duly approved by the Board of Directors. The pay package of all employees other than Managing Director and Contractual Employees are determined by the management in accordance with the approved scale of pay. The compensation package of Managing Director is determined by the Board of Directors and subject to the approval of the Central Bank, i.e. Bangladesh Bank. Remuneration Package of Contractual Employees, as and when required, are determined and approved by Board of Directors on case to case basis prior to appointment. The annual increment and incentive bonuses for the eligible employees are paid on the basis of performances under the purview of Board approved policies in this regard.

The main objective of the remuneration policy of the Bank is to retain the existing human resources, attract/hire the talented & experienced professionals and to motivate the workforce to put their best efforts for sustainable growth of the Bank.

The components of remuneration are mentioned in the diagram:

The basic pay & other allowances like house rent, medical allowance are increased at a fixed rate annually
